WATER THE EVERGREENS

More Evergreens are lost through lack of moisture than through any other cause. During the dry season, as well as directly after planting, make basins in the soil around the individual evergreen trees and shrubs and fill them frequently with water. This applies particularly during the first season after planting.

EVERGREEN SHRUBS.

Abelia grandiflora, Bush Arbutus. Graceful evergreen shrub with small glossy leaves and beautiful small white flowers blushed pink. Well worth planting, 12 to 15 in., \$1.25.

Lawrence's Landscape Service

This Department offers a service of proved reliability, based on thirty years of practical experience, combined with thorough technical training in landscape architecture, engineering, and plant materials.

It offers advice, estimates and sketches covering, if desired, the complete project,—plans, planting materials, and the labor for the actual construction and development, under competent foremen. The co-ordination of this service with our Nursery Department permits effecting economies not otherwise possible.

A notable qualification is a special knowledge of all conditions affecting planting near the seashore.

The cost of this service is moderate. It is always at your disposal, and it is our constant endeavor to give prompt, efficient, courteous attention to each request.

Garden Accessories

We offer a very attractive variety of Garden Features of the highest quality, including Bird Baths, Sun Dials, Gazing Globes, Benches and Seats of stone or wood. Garden Furniture, Urns, Vases, and Pottery of unusual appeal. A display of such accessories is shown at our Gardencraft and Flower Shop, Depot Avenue, Falmouth. A visit there may prove quite interesting; inspection incurs no obligation to buy.

Bay Trees, Boxwood and other Evergreens and the popular Hydrangeas, in tubs, may be secured at Lawrence's, and we have proper facilities for the winter storage of these tub plants.

We are in a position to furnish suggestions and sketches for attractive arbors, pergolas, and lattice screens and fences, and to arrange for their construction according to such details.
